Portfolio

PROFESSIONAL SUMMARY

Final-year ERP/BI engineering student at ESPRIT seeking PFE 2027. Builds reliable data pipelines, SQL reporting and decision-ready BI, with applied software/ML integration and current SAP BW / ABAP-Fiori coursework.

EXPERIENCE

ODDO BHF | Software Development Factory Intern

Jun 2026 - Aug 2026

- Prepared HR data in PostgreSQL across 12 business domains; created seven SQL reporting views with data quality checks.
- Built a four-page Power BI report with a semantic model and DAX for attendance, training hours and satisfaction.
- Implemented .NET/EF Core APIs and Angular analytics; integrated Python ML and validated .NET, Python and Angular tests.

Main implementation: PostgreSQL / SQL, Power BI / DAX, .NET / EF Core, Angular, Python

Environment exposure: Apache Kafka, OpenShift

Ooredoo Tunisie | Software Engineering Intern

Jun 2025 - Jul 2025

- Developed Spring Boot/Angular B2B components and Power BI dashboards for telecom contract and service tracking.
- Integrated REST data sources and ETL pipelines; translated business requirements into technical specifications.

AWARDS / COMPETITIONS

GreenOPS AI - 2nd Place - 2,000 TND prize

Data Engineer | AI competition | Pharmaceutical sustainability

- Collected and integrated multi-source data into a preparation pipeline for AI training.
- Prepared training-ready datasets aligned with pharmaceutical business needs; contributed data/prediction integration.

Tools withheld under NDA. LLM development delivered by teammates.

SELECTED PROJECTS

Intelligent Urban Mobility | Data / ML team contributor

Feb 2026 - May 2026

- Contributed Python data/feature pipelines and ML training/evaluation; exported BI-ready prediction datasets.
- Contributed FastAPI prediction/retraining integration and n8n result persistence.

Tech: Python, scikit-learn, FastAPI, n8n · GitHub / project evidence

Business Performance Prediction / ML Superstore (Nov 2025 - Dec 2025)

Applied CRISP-DM; built a Streamlit prediction app with model comparison and business insights. Analysis repository / Application repository

TECHNICAL SKILLS

Data & BI: Python / SQL / PostgreSQL / ETL / Power BI / DAX / Pandas

ML / Integration: scikit-learn / FastAPI / n8n / Model evaluation

Engineering: .NET / EF Core / Angular / Spring Boot / REST APIs / Git

SAP / ERP (coursework): SAP BW / ABAP / Fiori / AWS Fundamentals / DevOps / MLOps

EDUCATION

ESPRIT | Computer Engineering - ERP / Business Intelligence

Sep 2022 - Present | Final-year student; degree in progress.

CERTIFICATIONS

Fundamentals of Deep Learning | Introduction to Transformer-Based Natural Language Processing
